Hrishikeshan Das

Frontend Developer - Production & Service / DevOps-
Oriented IT Professional

PROFESSIONAL PROFILE

Self-motivated IT professional and Frontend developer - Production & Service with hands-on experience in mobile apps, responsive websites, web applications, hosting management, and manufacturing technology workflows.

Combines software development practice with strong business process exposure across material management, accounting, production planning, HRMS, and weighbridge operations, networking, hardware support, and domain setup. Open to international software opportunities.

PROFESSIONAL EXPERIENCE

Developer and Network Engineer

2019 - Present

Manufacturing Industry Environment • India

- Provide IT, networking, hardware, website, hosting, and software support in a manufacturing business environment.
- Develop independent software projects using modern development tools and AI-assisted workflows.
- Support ERP web application workflows and business process digitisation across operational departments.
- Manage hosting, domain configuration, email setup, troubleshooting, and general web administration.

MAJOR PROJECTS

PardeshNaukari.com

Full-stack Overseas Job Portal

- Engineered a custom hash-based SPA router from scratch with query-param parsing.
- Integrated Razorpay with server-side HMAC-SHA256 signature verification via Cloud Functions.
- Role-based access control for 3 user types enforced simultaneously at React and Firestore rules.
- Built a no-SSR dynamic SEO engine injecting route-aware meta tags and JSON-LD structured data.

Stack: React 19, Firebase Functions, Razorpay, Vanilla CSS

KharchaTrackr

Android Expense Tracker

- Implemented partner sharing via email with granular View/Edit role-based permissions.
- Used Firestore WriteBatch for atomic multi-document writes and a linked entry system.
- Applied Repository pattern with dependency injection for full unit-testability.
- Integrated Google AdMob interstitial ads with session-day throttling.

Stack: Flutter 3, Dart, Firebase Streams, Material 3

PardeshNaukari Mobile App

Ongoing Development

- Native mobile companion app for the job portal currently in active development.
